

TechAspect offers complete range of services on Interwoven products from architecture consulting through to development, implementation and support. We have expertise in virtually all the Interwoven products namely TeamSite, OpenDeploy, DataDeploy, MetaTagger, LiveSite, MediaBin and WorkSite.

## Our Interwoven Solution categories

- ▶ Product implementation/Upgrade solutions
- ▶ Content Migration
- ▶ TeamSite Audit
- ▶ Maintenance/Support

## Product Implementation/Upgrade Solutions

You have already zeroed in on Interwoven TeamSite as ECM platform and now you are looking for a best implementation partner who can implement the system to suit your needs. TechAspect has been implementing TeamSite ECM solutions for nearly a decade. We leverage our experience to quickly understand your business process and configure the product quickly. This can get you started working with the systems immediately.

## Bundled offerings for implementing Interwoven products

- TeamSite Quickstart Basic
- TeamSite Quickstart Basic with Templating
- TeamSite Quickstart Basic with Templating and Workflows
- OpenDeploy Basic
- OpenDeploy Advanced
- DataDeploy Basic
- DataDeploy Advanced
- TeamSite Upgrade
- TeamSite Custom Development

We also offer implementation solutions for Metatagger, MediaBin and LiveSite.

## Content Migration Solutions

Have lots of legacy data to be migrated into TeamSite templates? TechAspect Rapid Content Migration Service (TRCMS) can help. Our TRCMS solution focuses on speed, quality and cost reduction. It is a mix of automated and manual migration steps that ensures all the data is accurately migrated and no assets are lost or misplaced. Please visit [http://www.techaspect.com/content\\_migration.aspx](http://www.techaspect.com/content_migration.aspx) for more information on TRCMS.

## TeamSite Audit

We conduct a 2 day fixed-cost audit of your TeamSite implementation and provide a set of recommendations based on industry best practices covering the following categories:

- Setup
- Business Goals
- Features
- Maintainability
- Security

## Maintenance and Support

We assign a dedicated TeamSite support person to work with you to resolve day-to-day issues in using TeamSite. Whether the issue is a pesky permission problem, a server gone down or a template not generating the page our experienced support personnel are adept at quick and accurate error resolution that helps reduce the downtime of the system.
