

TechAspect

Transform Your Content

into Capital

Partner for Success

At TechAspect, our success is built on delivering more than technology. As the leading provider of Web Content Management (WCM), Web Portal, Web Operations and Quality Assurance Solutions, we are enabling new levels of performance and capabilities. Since inception, TechAspect has been helping clients get ahead and stay ahead of their competition.

TechAspect has earned a decade-long trust with its customers by always going the extra mile and doing whatever it takes to deliver solutions that exceed their expectations. Through our technological alliances, partnerships and innovations, we continue to push the limits of what is possible and with our unmatched depth of knowledge and insight into our clients' businesses, we are driving their challenges into success.

TechAspect employs over 300 talented IT professionals globally at office locations in the USA, UK and India. Our customers have not only benefited from our talented resources that are part of their engagement team but also has leveraged our global knowledge pool to address any technological challenges across the organization.

Manage Content with Ease

TechAspect is an industry recognized Web Content Management Solutions provider with a focus on Autonomy TeamSite, Sitecore, Adobe CQ, Drupal, Joomla and other PHP Open Source Solutions. We have developed a deep understanding of the various Content Management Solutions and the opportunities they present. Based on that insight, we are able to collaborate with our clients to develop solutions that meet their needs and the needs of their customers to help advance their businesses.

Our superior technical expertise, industry experience and solution delivery models have helped us deliver the highest quality solutions with lowest possible cost. In addition, our strong technology alliances help ensure that our solution framework works seamlessly across a wide variety of content management systems.

With our deep domain knowledge in web content management, we bring the best methodologies to your CMS implementation.

Our breadth of content management service offerings include:

- » Product Implementation / Upgrade Services
- » Product Specific Value Added Solutions
- » Content Migration
- » Audit Services – Architecture, Performance and Security
- » Maintenance / Support

Expect Elegance Par Excellence

TechAspect is a chosen partner for corporate website development, B2B and B2C e-commerce portals. We provide technical solutions for implementing next generation websites using state-of-the-art technologies and implementing Web 2.0 features like blogs, forums, user generated content, social networking, groups, and various other interactive features.

Our customers can expect maximum advantage from our web solutions when the requirement is a dynamic website with rich User Interface (UI) features, serving high traffic volume, requiring complex backend logic and sophisticated content management requirements. Our e-commerce development solutions include payment gateway integration, search engine optimization, information management and dynamic updates.

Our Creative Web Experience team is proactive in tracking and implementing the best practices in UI design. Some of the front-end technologies that we have expertise on are: AJAX, CSS, JSON, JQuery, YUI, Dojo, XML, and HTML5. Our web development team is adept at implementation of designs using leading technology platforms including Microsoft ASP .Net technology stack, J2EE and LAMP.

TechAspect has highly qualified technical resources that can effectively manage your production website issues and provide 24x7 Customer Support at a substantially low cost.

Check the Difference

TechAspect provides a customizable testing framework to ensure that your applications are as reliable as possible.

TechAspect is experienced in both Traditional and Agile development environments and is capable of selecting the right approaches, tools and techniques in order to maximize the return from testing and utilization of the testing team.

To ensure your applications are as reliable as possible, we conduct thorough user acceptance testing and establish that the application meets user and design requirements. By establishing a dedicated Testing Center of Excellence (TCoE), TechAspect delivers a comprehensive and robust solution with a high level of standardization. Our cross-project approach to testing also ensures efficient re-use of resources, testing and test ware.

TechAspect has vast experience in testing on various environments, domains and technologies. These include:

- » Client-Server, Enterprise Applications, Web Applications, CMS Tools
- » Manufacturing, Media, Publishing, Insurance, Healthcare, Transportation, Financial Services
- » C, C++, VB, Java, J2EE, .Net, webMethods, TIBCO, SAP, Oracle App, PeopleSoft, IBM Websphere, WebLogic, Oracle, SQL Server.

Fuel Your Productivity

TechAspect is focused on helping clients succeed using our products created from our wealth of experience and talent. With extensive experience of Content Management implementations, Web and QA solutions, we always deliver products that are robust and reliable.

For organizations striving to control costs and reduce complexity, our products help you limit the requirement for highly qualified IT professionals and can automate routine manual processes, reduce time spent on administrative chores to boost individual productivity and increase content integrity.

Our products are proven and trusted by our customers. For the Autonomy Interwoven TeamSite Platform, TechAspect has developed several value-added solutions. To name a few, the Interwoven Toolkit and Workflow Reporter have helped our customers save time and effort in research and custom development.

About TechAspect

TechAspect is a leading IT company with main focus on implementing and integrating enterprise content management systems, websites and web applications. We build client-facing websites that are fast, easy and compelling.
